Curriculum Vitae — Anders Bøgetoft Moeslund

Anders Bøgetoft Moeslund

Lead Backend Developer (.NET) @ IMPACT Commerce

Odense, Denmark · linkedin.com/in/amoeslund · amoeslund.dk · github.com/Amoeslund

Experience

Lead Dotnet Developer — IMPACT Commerce
May 2024 – Present

Responsible for the design and architecture of a new IAM solution for Solar Group's B2B e-commerce platform based on Azure Entra External ID. Leading migration from a legacy Salesforce-based user structure to a modern CIAM architecture with JIT password migration. Close collaboration with the client on solution design across Salesforce, commercetools, and SAP. Author of technical design documents and responsible for migration strategy from pilot to full rollout.

Previously responsible for the technical direction of FTZ's e-commerce site with 200,000 daily sessions. Optimization of flows using Azure Service Bus for event-driven architecture. Close collaboration with the client's PO for scoping and estimation. Mentoring other developers on user flows in Azure AD B2C and the authentication flow in the frontend.

Senior Backend Developer — IMPACT Commerce
May 2022 – May 2024

Responsible for the technical direction of FTZ's e-commerce site with 200,000 daily sessions. Optimization of flows using Azure Service Bus for event-driven architecture. Close collaboration with the client's PO for scoping and estimation. Mentoring other developers on user flows in Azure AD B2C and the authentication flow in the frontend.

Head of Software Development — BlueKey
Sep 2021 – May 2022

Responsible for the software development team of three developers, as well as participating as technical sparring partner in client meetings for both new development and maintenance. Set up Jira automation using triggers based on GitHub workflow.

Software Developer — BlueKey
Oct 2020 – Sep 2021

Backend development of a microservice-based data search engine hosted in Azure. Performance optimization using distributed caching and auto-scaling. Set up DevOps pipeline with GitHub Actions for automated testing and deployment. Built a framework for easier unit test writing and set up code coverage monitoring tools.

.NET Developer — Hesehus A/S
May 2019 – Oct 2020

Support and development of e-commerce solutions. Development of backend APIs with .NET Core MVC and ASP.NET. Performance optimization with Redis caching and SQL query improvements.

Consultant — ESDHKonsulenterne
Jan 2018 – Apr 2019

Consulting for municipalities on case migration from ESDH systems to SBSYS. Development and maintenance of a TIFF rendering engine for file archival. Built a distributed queue system with RabbitMQ. Server operations and provisioning.

Teaching Assistant — University of Southern Denmark
Feb 2016 – Jan 2018

TA for DM505: Database Design & Programming and DM550: Introduction to Programming.

Education

BSc Computer Science
University of Southern Denmark (SDU), 2014 – 2018

Languages

DK Danish — Native
GB English — Full Professional

Core Competencies

C# / .NET · ASP.NET Core · Azure · Solution Architecture · REST APIs · Microservices · SQL Server · Entity Framework · CI/CD · Docker · Git · Redis · Azure Service Bus · Azure AD / Entra ID · Event-Driven Architecture · CIAM · Technical Leadership · Clean Architecture · SOLID · Code Review · Mentoring

Security Expertise

Demonstrated through IMPACT Commerce CTF (solo winner):

XSS · JWT Exploitation · SQL Injection · YAML RCE · IDOR · Prompt Injection
